YOUR CAR WAS STOLEN. NOW WHAT?

Report to local law enforcement. Call immediately. Give them a complete report. Take photos of the scene, the damage, etc.

Call your insurance company. To file a claim provide specifics on your car, contents and loss.

Protect your identity. List all personal items that were in your stolen car. If you had a garage door opener, you'll want to deactivate it since the thief now knows where you live. If you had any credit cards or a cell phone, you'll need to cancel them. Spare keys?
