**Colorado Auto Theft
Prevention Authority**

Department of Public Safety

Law Enforcement Toolkit Overview

This comprehensive toolkit was created by Coloradans Against Auto Theft (CAAT) to support law enforcement agencies' community education and engagement efforts regarding the severity of auto theft in Colorado. CAAT seeks to provide agencies with tools, resources and actionable steps to encourage Coloradans to use best practices in avoiding auto theft.

This toolkit is a collaborative effort, and our law enforcement partners are encouraged to provide input to help improve this resource moving forward. Any comments or requests for additional information can be directed to Kenya Lyons at kenya.lyons@state.co.us.
